Staff: Kimberly Rontey
3. Arts Center East, Vernon, CT – Review of Art Track Display Options with ACE Staff
 - Viewed rod-style hanging system and discussed with staff at ACE.
 - Pros: Rods tend to stay straighter, with less issues of artwork pulling off the walls if wired improperly. Rods are easy to take on/of track.
 - Cons: Rods show past work unless you cut them, challenging to make micro-adjustments
 - Discussed wire-style hanging system
 - Pros: Easier to manipulate for micro-adjustments, wire can be wrapped behind work to not show
 - Cons: artwork may lean off wall. To move/change wires you must remove all wires before.
4. Adjournment – 3:35pm
