

## **F. Topography**

The MDP Project Area is bounded by Storrs Road to the west, Dog Lane and land owned by the University of Connecticut (Buckley Hall and the Daily Campus building) to the north, the Joshua's Trust Nature Preserve to the east, and Town of Mansfield property to the south. Existing elevations range from 630 feet in the southwest portion of the Project Area along Storrs Road, to a low of 560 feet in the northern watercourse at the eastern limits of the Project Area. A small plateau is located in the center of the property, separating the northern and southern watercourses. A complete depiction of Project Area topography is contained in Figure 3, which is entitled "Compilation Plan," and is found in Section E of this MDP.

According to the Federal Emergency Management Agency Flood Insurance Rate Maps (Parcel No. 090128 0010C, Rev. October 29, 1978), the Project Area is located in Zone 'C', which is an area of minimal flooding. There are no mapped areas of flooding within the Project Area.
