#####

Storrs Center is a mixed-use town center and main street corridor at the crossroads of the Town of Mansfield, Connecticut and the University of Connecticut. Located along Storrs Road adjacent to the University, the Town Hall, the regional high school, and the community center, Storrs Center will include a new town square across from the University's fine arts center and will combine retail, restaurant, and office uses with a variety of residence types. The town center plan will knit thoughtful architecture, pedestrian-oriented streets, and public spaces into a series of small neighborhoods that will make up the new fabric of the town center. Ground floor retail and commercial uses opening onto landscaped sidewalks will reinforce traditional street front activity and will be supported by residences above and shared community spaces.
