

Historic District Commission
January 12, 2010
8:00 p.m.

Present: Jack Nardi, David Spencer, Isabelle Atwood,
Guests: Mr. and Mrs. Shiffrin

The Shiffrins returned with a request for approval of changes to the certificate of appropriateness issued in May of 2006.

As a result of the Federal Energy Regulatory Commission licensing process, these changes are necessary.

Approval is requested to move the power house a short distance nearer the road (the length of a car) and to increase the size of the basic footprint.

Since the changes are minor and no one appeared at the original hearing, we felt that another hearing is not required.

The requested changes were approved and the former certificate of appropriateness renewed.
