

PERMANENT ABSENTEE BALLOT STATUS

Public Act 12-57, "An Act Concerning Permanent Absentee Ballot Status for the Permanently Disabled" created permanent absentee balloting status for certain individuals and became effective January 1, 2013.

To be eligible for permanent absentee ballot status, an elector must file an absentee ballot application together with a doctor's certificate stating that they have a permanent disability and are unable to appear in person at their polling place. The doctor's note should be on letterhead. There is no prescribed form—the doctor's note and the absentee ballot application would satisfy the requirement of the law.

Permanent absentee ballot status enables the elector to receive an absentee ballot for each election, primary, and referendum* in the municipality in which they are eligible to vote. Absentee ballots are available 21 days before a Primary and 31 days before an Election. *The only exception to the automatic receipt of a ballot is in those instances where there is less than 3 weeks' notice for a referendum. Statutes prohibit the mailing of ballots for these referendums. Instead, an application will be sent to the elector outlining their options to have someone pick up a ballot in the Town Clerk's office.

ELIGIBILITY

In January of each year the Registrars of Voters will send written notice to each elector with permanent absentee ballot status to determine if the elector continues to reside at the address on the permanent absentee ballot application. If the elector fails to respond to the notice, the permanent absentee ballot status will be removed, but the elector will remain on the voter registration list.
